

OPEK 5.1 dBi $5/8$ Wave 5 MHz Bandwidth VHF NGP Antenna

SKU: OP-1217A

Features

OPEK Premium wideband VHF antennas provides high efficiency and top performance for mobile coverage. Designed with no tuning required and whip fully assembled to minimize workload. Featuring a rugged compact housing and tapered whip with the highest grade stainless steel. These antennas are specifically constructed for SurePower in "The Great White North".

- Top performance high gain cut tuning frequencies for seamless operation
- 17-7PH Stainless Steel Whip (3.0 Tapered)
- Spring load gold plated contact pin
- Rugged stainless steel tapered whip with thick wall-wall housing, and double seals with O ring and gasket for maximum protection
- Compatible with all $3/4$ " mounts
- OP-1217A will operate with or without a ground plane

Specifications

ELECTRICAL

Frequency Range (MHz)	136 - 174
Bandwidth (MHz)	5 VHF
Antenna Wave	5/8 Wave
Antenna Gain	5.1 (dBi) or 3 (dBd)
Maximum Power (Watts)	160
Nominal Impedance (Ω)	50
VSWR	$\leq 1.70 : 1$

MECHANICAL

Height (in)	54.3
Mount	NMO Mount
Whip	17-7Ph Stainless Steel
Spring	No Spring
